

# OPEN DEI

Aligning Reference Architectures, Open Platforms and Large-Scale Pilots in Digitising European Industry

As part of the **Horizon 2020 programme**, the OPEN DEI project focuses on “Platforms and Pilots” to support the implementation of next generation digital platforms in four basic industrial domains:

MANUFACTURING

AGRICULTURE

ENERGY

HEALTHCARE

**OPEN DEI:  
Opening  
the eyes of  
European  
industry and  
society to  
the returns  
from Digital  
Transformation**

OPEN DEI strives to implement four action lines:

### **PLATFORM BUILDING**

Comparing reference architectures and open source reference implementations, enabling a unified industrial data platform

### **DATA ECOSYSTEM BUILDING**

Enabling an innovation and collaboration platform, forging a European network of DIHs, contributing to industrial skills catalogue and observatory

### **LARGE SCALE PILOTING**

Contributing to a digital maturity model, creating a set of assessment methods and a migration journey benchmarking tool

### **STANDARDISATION**

Conducting cross-domain surveys, performing promotion and implementation, building alliances with existing EU and standard developing organisations
